SUPPORTING NATIONAL FEDERATIONS AND TOP ATHLETES

Since 1973, arena has prioritized strong connections with the most important swimming and watersports federations around the world, providing support from the grassroots level to the Olympics and Paralympics.

National Federations play a critical and active role in the development of both amateur and elite watersports.

We share their goal to grow watersports, increasing inclusivity and diversity and using sport as a driver for social wellbeing. We share their commitment to make the water accessible for people to relax, train and compete.

At the heart of the arena brand are its athletes, who are both key collaborators in the product development cycle and important ambassadors for the brand, upholding its values and expressing its authenticity.

Since Mark Spitz first teamed up with Horst Dassler in 1973, arena's progression to the top of its field has been accomplished in partnership with world class swimmers. Their voices are not only emblematic of the brand's emphasis on quality, they're also an inspiration for many, from the amateur who goes to the pool to stay fit and lead a healthy lifestyle, to those that mount the Olympic podium, and importantly also the backroom staff who have helped craft and live the entity that arena has proudly become.

Following the outstanding performance of its legendary team at the Paris 2024 Olympic Games and its continued success in international competitions, arena continues to capture the world's attention and generate excitement and anticipation for the next wave of swimming events.

Meet our elite team: <https://about.arenasport.com/en/athletes/>

CSR MANIFESTO

BUILDING A BETTER FUTURE TOGETHER

At arena we recognize that everything we do has an impact on the planet we live on, as well as its people.

We strive to help create a future that continues to allow everyone to enjoy swimming and water sports in a healthy environment.

That's why we're committed to having a positive impact on you, the environment and our communities, inspired by our passion for sports and life in and by the water, our most abundant natural element.

As a leader in the sports realm our commitment to 'responsibility' represents the conscious and effortful way in which we plan to measure our footprint and invest in our planet.

arena's products are designed to help and inspire people to be active and to move towards the best version of themselves by being healthier and connected to nature.

As part of that philosophy, quality and durability are key considerations in our design process in order to guarantee that our products are long-lasting and don't need to be replaced frequently, thus reducing waste.

We choose partners who share our values and, like us, invest in both the planet and its people.

We care about the well-being and rights of employees working in the manufacture of arena's products and are committed to being transparent about our partners and policies.

We support local communities and promote water-sports through sponsorship and collaboration with national sports federations, sports teams, and international governing bodies.

We are an equal-opportunity employer and value diversity ensuring equal treatment for all our employees across the globe.

The arena brand was born in water, and for over 50 years has thrived in its element.

We've learned that to do so requires courage, responsibility, and action, and we remain resolute in our desire to give everyone the opportunity of living their deep connection with water: that feeling of freedom and peace, joy and profundity we all experience in and by the water.

RESPONSIBLE PRODUCTS

To design and manufacture all products in a progressively more environmentally conscious way is a key step in the commitment we have taken.

We are constantly working to develop more sustainable garments and accessories to reduce our environmental impact, while still guaranteeing the same distinctive performance, quality, protec-

tion, style, comfort and fit that sets arena apart.

We are working with sustainable fabrics made with recycled fibers pre and post consumer, with organic fibers and certified according to third-part international certifications.

Starting from SS22, season by season, we have steadily increased the number of styles with responsible features, such:

- Recycled fibers: Commitment to use third-party certified materials such as the Global Recycled

Standard for fabrics

- Organic cotton: Cotton grown using agricultural methods that do not use synthetic pesticides, chemical fertilizers, or other harmful chemicals.

- OEKO-TEX Made in Green certification: The certification focuses on product safety and sustainable manufacturing processes.

We proudly accept the challenge of ensuring excellent product performance while pursuing environmental and social sustainability.

ARENA DESIGN PILLARS

HIGH PERFORMANCE

Maximum comfort and performance are priorities in our swimwear. Our innovative materials and streamlined, athletic cuts focus on ease of movement and comfort for all body types, whether you are swimming laps or enjoying leisurely dips in the ocean.

DURABILITY

Durable, multi-use products reduce environmental harm over long life cycles. We select high-quality, long-lasting materials and components so your swimsuit and other products withstand many seasons of swimming.

LOW ENVIRONMENTAL IMPACT

Choosing eco-friendly materials, and cutting waste and pollution, are vital for dealing with the environmental challenges of our time. Circular models are essential to our brand mission, with optimized production processes to minimise waste and environmental harm.

RESPONSIBLE SUPPLY CHAINS

Responsible, ethical supply chains that positively impact and inspire communities and protect resources for future generations through fair, sustainable practices for each individual product made.

RESPONSIBLE PACKAGING

All the elements necessary in the delivery of products to the consumer have an impact on the environment. To reduce this impact, we are using sustainable materials for our packaging (hangtags, pouches, polybags, boxes, etc.).

FSC® certified cardboard is our choice for most packaging made of paper, and for the vast majority of plastic packaging, we use recycled plastic.

The FSC logo on our packaging ensures that it has been made in compliance with rigorous environmental, social and economic standards, which aim to protect the world's forests and ecosys-

tems that depend on them and respect local communities and the rights of workers.

This choice supports the mission of the Forest Stewardship Council®, an international NGO that has been promoting responsible forest management for over 25 years.

Following the approach taken in FW25 for swimwear pool and sportswear, starting from SS26, racing hangtags have also been reduced in size and simplified by consolidating two hangtags into one. This adjustment has led to significant raw material savings.

The mark of
responsible forestry

POWERSKIN PRIMO

Greatest compression,
ultimate elasticity.

220 gr/sqm

FABRIC

>) HYPERFORCE (<

THE TENSOELASTIC FABRIC

Thanks to the revolutionary tensoelastic properties of the arena Hyperforce™ fabric, Powerskin Primo redefines compression by maximizing it with just minimal stretching. Fabric's extraordinary elasticity allows for 50% more stretch than standard fabrics, enabling a range of motion never experienced before. It delivers the highest overall compression and ultimate comfort.

**POWERSKIN
CARBON GLIDE**

Supreme combination of
lightness and compression.

FLEXIBILITY COMPRESSION

127 gr/sqm

**POWERSKIN
CARBON AIR₂**

The lightest feel.
Your second skin.

FLEXIBILITY COMPRESSION

113 gr/sqm

WEIGHT

 CARBON FIBER

10 times stronger than steel, chlorine resistant and with shape-memory,
Carbon Fiber is a powerful material with extraordinary qualities.
Tech suits made from this fabric are highly resilient and are not altered by use
in pool water for a long-lasting lifespan.

POWERSKIN PRIMO

THE FIRST RACE SUIT WITH HYPERFORCE™ FABRIC.

Engineered with

>)HYPERFORCE(<
THE TENSOELASTIC FABRIC

The genesis of a new era: 4 years of development, 18 months of tests, 89 different prototypes and almost 400 athletes involved around the world. arena redefines the world of swimming and introduces the pinnacle in technical race suit technology: POWERSKIN Primo, built from the ground-up utilizing the latest scientific breakthroughs in the textile industry and physics for unparalleled performance and durability. Designed to eliminate all compromise in your technical race suit selection, it is not just a compressive suit. **It's the first of its kind.**

POWERSKIN PRIMO

FIRST IS BETTER
THAN FAST.

Engineered with

>)HYPERFORCE(<
THE TENSOELASTIC FABRIC

FLEXIBILITY COMPRESSION

COMPRESSION AND

FLEXIBILITY

No more compromise. Our most powerful compression combined with extraordinary elasticity thanks to Hyperforce™ - the first ever Tensioelastic fabric.

+

QUICKER RACE-DAY ROUTINE

Fast in **AND** out of the water. Finally a high-compression suit that goes on in under 5 minutes to streamline your race-day routine.

FLOATING LEGS

A completely new internal taping construction provides powerful support that lifts the legs and hips for optimal body positioning.

PERMANENT WATER RESISTANCE

Permanently hydrophobic TPU fiber provides for maximum water repellency over the life of the suit.

EXPANDED SIZE RANGE

Available in Long Torso sizes for a nearcustom fit and supreme comfort without sacrificing compression.

NEW SHOULDER STRAP DESIGN

Redesigned shoulder strap construction provides more stability and fewer pressure points for optimal comfort and range of motion.

CORE SUPPORT

Internal X-Tape construction provides excellent core stability and connects the hips to the upper body to limit excessive torso rotation.

SUPERIOR WATER FLOW

Hyperforce's unique flow-channeling fabric surface improves hydrodynamics and lowers surface drag for maximum speed and streamline performance on and under water.

CUSTOM WAIST HEIGHT

The Hyperforce fabric's extraordinary elasticity allows for custom waist height adjustment from low to high.

ENHANCED COVERAGE

Longer cut from waist to knee provides greater suit coverage for maximum compression where you need it most.

 WORLD AQUATICS

APPROVED

POWERSKIN VELOCE PURE SPEED. TRUE COMFORT.

Engineered with

>)HYPERFORCE(<
THE TENSOELASTIC FABRIC

Powerskin Veloce is the new racing suit designed to deliver elite-level performance with uncompromised comfort.

Engineered with cutting-edge Hyperforce™ technology, it provides powerful compression without restrictions, delivering optimal muscle support, hydrodynamics, and unmatched comfort. Every detail is designed to help swimmers focus purely on speed and feel the difference that true comfort makes.

POWERSKIN VELOCE

SPEED MADE COMFORTABLE.

Engineered with

>)HYPERFORCE(<
 THE TENSOELASTIC FABRIC

FLEXIBILITY COMPRESSION

**FREE-MOTION STRAPS**

A newly engineered shoulder strap that conforms to the body with adaptive flexibility, maximizing comfort and freedom in every motion.

**SUPERIOR DURABILITY**

Hyperforce™ technology retains its compression and power, ensuring long-lasting performance over time.

**PERMANENT WATER REPELLENCY**

Naturally hydrophobic TPU fibers provide long-lasting, durable water repellency.

**SENSATIONAL UNDER-WATER**

Superlight and ultra-low-profile that dramatically reduces surface drag underwater.

**STRONG COMPRESSION, + LIGHT FEEL.**

Hyperforce™ Technology delivers the ideal balance of lightness and compression for uncompromised performance and comfort.

**FULL RANGE MOTION**

Engineered for unrestricted movement in every stroke.

**ENHANCED COVERAGE**

Extended length from waist to knee for increased leg coverage.

**EXPANDED SIZE RANGE**

Available in Long Torso sizes for a nearcustom fit and supreme comfort without compromise.

**INTERNAL TAPING STRUCTURE FOR ADDED CORE SUPPORT**

The internal tape construction provides excellent core stability delivering a secure and supportive fit.

WORLD AQUATICS

APPROVED

CARBON FIBER SERIES

THE POWER OF THE CARBON FIBER: FLEXIBILITY, COMPRESSION, DURABILITY. TOGETHER AT LAST.

Engineered with

One fiber of carbon is 10 times stronger than steel and 80% lighter. It's an extraordinary material used for performance and speed, implemented also in F1 and space shuttles.

After years of extensive research and development, arena found the way to integrate flexible strands of Carbon Fiber into the fabric of its Carbon Series racing suits.

POWERSKIN CARBON CORE FX

FEEL THE POWER.

Engineered with

FLEXIBILITY COMPRESSION

UPPER BODY FLEXIBILITY

Completely new lining design helps to release pressure in specific areas to deliver superior upper-body flexibility without sacrificing all-over compression and support (women's suit only).

LOCKED-IN FEEL

All-over Carbon Cage fabric, improved lining design, and an internal taping system deliver maximum core stability and body alignment with an evenly-distributed compression profile and locked-in feel.

ULTIMATE COMPRESSION

A horizontal and vertical carbon fiber grid that delivers strong and long-lasting all-over muscle compression and a locked-in feel.

HIGH BODY POSITION

A new twin-taping design on the back of the legs creates a lifting effect to maintain a high and streamlined body position in the water even with muscle fatigue.

POWERSKIN CARBON GLIDE

FEEL THE GLIDE.

Engineered with
CARBON FIBER

TARGETED COMPRESSION

Utilizing the highest content of carbon fiber, the Carbon Glide utilizes a carbon grid that surrounds specific muscle groups for strong, targeted, compression and reduced form drag, underwater glide.

ULTRA-LIGHT

Featuring a multi-fabric construction combining both Hydroglide and carbon fiber materials, the Carbon Glide offers the perfect combination of lightness and compression for uncompromising performance and fit.

ZERO-DRAG

Superlight and ultra-low-profile, our exclusive new Hydroglide fabric dramatically reduces surface drag for sensational underwater glide.

MUSCLE ACTIVATION

Carbon Fiber infused lining, placed strategically to activate major muscle groups, provides an added feeling of support, body-hold, and streamlined speed.

POWERSKIN CARBON AIR²

FEEL THE LIGHTNESS.

Engineered with
CARBON FIBER

COMFORTABLE COMPRESSION

Horizontal carbon bands lock down at a critical stretch point to provide compression, core stability and power when and where it's needed.

A lighter Intelligent Compression with the comfort of a second skin.

REDESIGNED FOR GREATER FREEDOM

The internal lining consists of 3 separate panels to give greater freedom of movement. This results in less compression across the chest (woman's suits) and it reduces pressure on the hips and improves flexibility.

SECOND SKIN EFFECT

Thanks to the absence of multiple seams, the Carbon-Air² offers supreme comfort and absorbs less water, resulting in less drag and an advanced hydrodynamic effect. It's also easier to put on.

POWERSKIN IMPULSO

PRO-LEVEL TECHNOLOGY NOW ACCESSIBLE TO ALL SWIMMERS.

Stripped down to the essentials, Powerskin Impulso focuses solely on what matters: it's crafted from high-quality Italian woven fabric, born in the same fabric mill as Primo, offering moderate compression to enhance muscle support and reduce drag in water. Durable and lightweight, it fea-

tures strategically placed flatlock seams for optimal movement and comfort. Suitable for both adults and juniors, it is World Aquatics approved and is priced competitively, making it an ideal choice for competitive swimmers seeking performance and value.

POWERSKIN ST NEXT

THE FIRST EVER FINA-APPROVED RACING SUIT MADE WITH RECYCLED FIBERS.

arena proudly introduces the next generation of competitive swimsuit. The first brand worldwide to ever launch a sustainable racing suit: the ST NEXT. Compared to the previous ST 2.0, this re-envisioned version is 20% lighter, which results in less water absorption and drag. The specific characteristics of the new fabric provide a longer-last-

ing compression and, consequently, greater durability. In addition to its performance, ST NEXT utilizes sustainable materials. Over 60% of the yarns used in its fabrication come from pre and post-consumer waste, which would have otherwise been destined for landfills. The FINA approved status of the ST NEXT makes it the first of its kind to be suitable for competitions.

POWERSKIN IMPULSO

POWERSKIN ST NEXT

FABRIC

HIGH-TECH WOVEN FABRIC

firmer and more durable, coming from the same factory as Primo.

A full-body photograph of a man standing on a rocky shore at sunset. He is wearing a black long-sleeved wetsuit with teal-colored hexagonal patterns on the shoulders, elbows, and knees. The brand name 'arena' is printed in white on the upper chest, and 'THUNDER' is printed vertically in white on the right thigh. He is looking off to the side with a serious expression. The background shows a calm sea and a hazy, orange-tinted sky.

OPEN WATER WETSUIT

POWERSKIN THUNDER

THE ESSENCE OF WETSUIT.

MEET THE WETSUIT THAT IS FITTED WITH CORE TECHNOLOGIES TO PROVIDE THE BEST MIX OF BUOYANCY, FLEXIBILITY, THERMAL PROTECTION AND COMFORT.

The POWERSKIN THUNDER was conceived in an effort to understand the essence of what open water swimming beginners need from a wetsuit. We utilized our proven legacy and experience in the sport to provide novices with a clear-cut solution to their racing needs. Equipped with all the essentials, it is made entirely from eco-friendly, durable Yamamoto limestone neoprene and coated with Nano SCS for an efficient glide through the water.

The distribution of neoprene density minimizes resistance during the swimmer's stroke, and provides buoyancy in all the right areas for an optimal body position. The thickest 4mm layer is placed within the core for added stability, while the upper chest and legs are supported with a lighter layer of 3mm neoprene for thermal protection. The shoulders and arms experience greater freedom of movement thanks to the 2mm neoprene thickness coverage.

WETSUIT
RANGE

	STORM	THUNDER
LIMESTONE NEOPRENE DEVELOPED WITHOUT THE USE OF OLL	X	X
NEW COLLAR AND NECKLINE DESIGN FOR ADDED COMFORT AND ZERO CHAFING	X	X
STRATEGIC DISTRIBUTION OF NEOPRENE THICKNESSES TO ENSURE OPTIMAL BUOYANCY AND FREEDOM OF MOVEMENT	X	X
ULTRA-THIN 1,5 MM YAMAMOTO NEOPRENE ALONG THE ARMS FOR OPTIMAL FLEXIBILITY AND MOVEMENT	X	
IMPROVED ZIPPER CLOSURE FOR A TIGHTENED SEAL	X	X
STANDARD BOTTOM-UP ZIPPER DESIGN FOR EASE OF USE	X	X
DOUBLE LAMINATED ULTRA-THIN NEOPRENE PANLES ALONG THE FOREARMS FOR HEIGHTENED AWARENESS OF THE WATER DURING THE CATCH AND PULL PHASES OF THE STROKE.	X	
NANO SCS COATING TO REPEL WATER AND REDUCE DRAG	X	X
DOUBLE-BLIND STITCHING AND GLUE CONSTRUCTION FOR COMPLETELY WATERPROOF SEAMS	X	X
APPROVED BY FINA, WORLD TRIATHLON (ITU), IRONMAN & USAT	X	X
AIRLOCK TECHNOLOGY FOR A PERFORATED FABRIC THAT TRAPS AIR DURING THE LAMINATION PROCESS	X	
INTERNALLY LAMINATED NEOPRENE WITH POWERSKIN CARBON FIBER WOVEN FABRIC	X	
1.5 MM THICK YAMAMOTO NEOPRENE ON THE ANKLE AND WRIST CUFFS FOR ENHANCED ELASTICITY	X

HYPERFLOW

The first swimwear built specifically for high-intensity swimming, delivering durability and unmatched comfort.

The first swimsuits built specifically for high-intensity swimming, delivering **durability** and **unmatched comfort**.

XLANCE®

invisible
innovation

The tech in-
gredient for
long-lasting
stretch

XLANCE® makes elasticity durable

thanks to its unique chemical
and thermal resistance.

XLANCE® makes anything elastic from Polypropylene to extra white and non-iron clothing.

XLANCE® makes elasticity sustainable from an eco-friendly manufacturing process to extended garments life cycle.

Chlorine proof

XLANCE® is extraordinarily resistant to chlorine thanks to its capacity to resist oxidative degradation. Upon exposure to swimming pool conditions, it retains its physical properties for hundreds of hours.

EQUIPMENT

Everything swimmers need in and by the water, to get the best of their water experience.

YOHANN NDOYE-BROUARD

GOGGLES

COMPETITIVE

Designed for competitive swimmers and approved by FINA, arena Racing goggles combine innovative materials and a hydrodynamic profile that reduces drag and enhances vision, while delivering comfort and durability.

FITNESS

arena goggles are designed to protect your eyes, ensure the best visibility and deliver maximum comfort in the water, as if you were looking with your own eyes.

GOOGLES FEATURES

All arena goggles have UV protection and adapt perfectly to most facial profiles, avoiding any water leakage. A perfect fit also allows no humidity, protecting the lenses from fog.

Tested for compliance with internationally recognized ISO 18527-3:2020 standards, these swimming goggles ensure safety and performance through safe materials, impact-tested construction, optical clarity and a minimized risk of water leakage. All arena goggles have UV protection and adapt perfectly to most facial profiles. A perfect fit also allows no humidity, protecting the lenses from fog.

1
LENS

- HARD**
High-performance lenses made from polycarbonate, which is durable and impact-resistant with superior optical clarity.
- MIRRORED**
Extra shading against light for outdoor swimming, frequent use in well-lit pools and in competitions.
- SUPER ANTI FOG**
The most advanced coating treatment. Lasts longer, thanks to an invisible layer that washes away vapor generated from sweat, moisture and water.
- SWIPE ANTI FOG**
Revolutionary anti-fog protection that lasts 10 times longer and can re-activated by swiping the lenses with your fingers.

LENS TINTS

CLEAR MEDIUM DARK

- CLEAR:** These goggles with clear lenses are ideal for low-light environments and for those who prefer maximum brightness while swimming.
- MEDIUM:** These goggles with medium-dark lenses are suitable for all uses and variable or intermediate light levels.
- DARK:** These goggles with dark lenses are good for swimming in brightly lit environments or for those who prefer maximum light shielding.

2
SEALS

- SOFT SILICONE**
Seals made of hypoallergenic silicone for great softness, resilience, and comfort.
- JAPANESE RUBBER**
Soft TPR layer moulded over the lens on goggles without gaskets.
- LIQUID CORE TECHNOLOGY**
Liquid silicone offers the ultimate goggle comfort, fit, durability and elasticity.
- AIR SEALS**
Adaptive cushioning that are designed to compress and distribute the pressure only where needed, delivering a super light feeling.
- CLOUDFLEX**
Brand-new cushioning system that comes as a bolder and more advanced solution to deliver top-notch flexibility, ergonomics and effective stress distribution. Now available for the new Air Sonic.

4
STRAP

- SINGLE**
Simple, intuitive strap for classic comfort.
- DUAL**
Facilitates optimum fit through ability to apply tension on different areas of the head.
- SPLIT**
Combines simplicity and flexibility for a snug, comfortable fit.

3
NOSE BRIDGE

- INTERCHANGEABLE**
Three options available, with 3, 4, or 5 different levels for a custom fit and best possible comfort.
- SELF ADJUSTING**
Adaptable nose bridge that conforms to the shape of the face while wearing it.
- ADJUSTABLE**
Nose bridge that can be regulated on two different levels according to individual need.
- HIGH**
Located higher up on the frame to provide additional room for the nose or accommodate those with atypical facial profiles.

5
FIT

- SMALL**
Different density on frame and seal materials offer superior fit and comfort.
- MEDIUM**
Seals made of hypoallergenic silicone for maximum softness, resilience, and comfort.
- LARGE**
Soft TPR layer moulded over the lens on goggles without gaskets.

CONSUMER TARGET

TRIATHLETES

As triathletes prioritize protection from hits and wide vision, some goggles are more adapt than others for triathlon. Both goggles for competitive and fitness swimmers can meet triathletes needs nevertheless.

Goggles designed for all adults, thanks to their adaptable fit.

WOMAN

Goggles specifically tailored for ladies, providing a smaller fit, feminine COLORS and a more gentle touch on the skin.

JUNIOR

Goggles tailored for 6-12 year old swimmers, provided with a gasket design that suits smaller eye-sockets.

KIDS

Goggles suited for 2-5 year old swimmers, prioritizing safety, ease of use and comfort.

UNISEX ADULT

COBRA

BEST TECHNOLOGY. HIGHEST PERFORMANCE.

Cobra goggles are the most advanced performance goggles for competitive swimmers on the market.

The family is now enriched by the new Cobra Edge: superior hydrodynamic design, unprecedented side and upward vision, increased eyelash space and improved nose bridge and gasket fit for a better comfort: the state-of-the-art goggle, equipped with Cobra family's unparalleled anti-fog technology: Swipe.

Also in the family: Cobra Ultra, with its sleek hydrodynamic construction and Cobra Core, mostly known for their comfort, both share frame-integrated lenses, reducing drag to the extreme.

At the same time, both Cobra Ultra and Cobra Original present an ingenious extended frame for extra stability when on.

Besides, Cobra goggles are enviously cool: their aggressive look gives swimmers an edge over their rivals.

FSC
PAPER MIX

AIR

COMFORTABLY LIGHT.

How goggles feel can be a game-changer for both fitness and competitive swimmers. Our Air goggles prioritize lightness and comfort with gaskets that reduce pressure and suction pain. The special honeycomb texture of the Air Seals ensures a soft yet watertight fit. Moreover, all Air Bold goggles are equipped with the most advanced anti-fog technology: Swipe.

Now, the new Air Sonic takes comfort to the next level with CloudFlex technology, offering greater stability and a more ergonomic design that flexes to adapt seamlessly to the face for a secure yet ultra-light fit.

FSC
PAPER MIX

THE ONE

DESIGNED TO FIT EVERYONE.

Made for fitness swimmers, the One goggles are designed to fit every type of face with their distinctive design. We studied facial anatomy to craft seals that better sit around the eye socket. The result is a goggle that ensures a perfect fit and excellent comfort. It's no wonder The One is an arena bestseller.

The "one fits all" concept has now been improved even more with the new entry of the family, The One Plus, which brings comfort and fit to a whole new level. The One Plus also features a new anti-fog technology that lasts 2.5x longer than a standard one. Now available in a polarized version for enhanced vision and reduced glare in bright environments.

FSC
PAPER MIX

SPIDER

PRACTICAL AND COMPACT.

Spider goggles are the perfect choice for swimmers who want a practical and compact solution. Made for recreational and fitness swimming, their simplicity is what makes them so good. All Spider goggles have a silicone strap with a single clip for easy adjustment, even for kids. The self-adjusting nose bridge adapts intuitively to your facial structure.

FSC
PAPER MIX

ARENA ESSENTIALS

ALL YOU NEED. SPEND LESS.

A collection of classic goggles with basic features, designed to deliver great value for money and guaranteed by the quality of the arena brand.

CAPS

COMPETITIVE

Designed for competitive swimmers and approved by FINA, arena Racing caps are the benchmark for water drag reduction and high-level hydrodynamics.

FITNESS

High quality caps coming with a design language delivering bright COLORS, eye-catching graphics and innovative materials for who wants to stand out from the crowd or simple and geometric lines combined with essential materials for the sports purists.

CAPS FEATURES

WRINKLE FREE
3D moulding gives the cap its ergonomic properties and eliminates wrinkles, making for a smooth glide through the water.

PVC FREE
No PVC (polyvinyl chloride) plastic has been used.

WATER REPELLENT
The superior water repellency of silicone and latex ensures that water does not penetrate the cap and reduces drag.

EXTRA COMFORT
The selection of material and design ensure that the cap fits snugly, while also providing elasticity and ease of use.

EASY TO WEAR
The design and the materials used in these caps make them especially easy to put on.

SUITED FOR LONG HAIR
The cut, material, design and manufacture are tailored specifically towards swimmers with long hair, making the cap easy to wear.

SMART CAP
Based on the combination of a band that holds your hair and breathable cap that protects it from water, the award-winning Smartcap is specifically designed for long hair swimmers.

CAPS SIZE CHART

A CIRCUMFERENCE OF THE HEAD

Measure around the widest part of the head, just above the eyebrow.

B EAR-TO-EAR

Measure your head from the top of one ear, over the crown, to the top of the other ear.

BAGS

A comprehensive collection of functional and contemporary backpacks, duffels and travel bags, designed for all sports enthusiasts.

AQUABREATHE

ARENA'S WET MANAGEMENT SYSTEM

#PLANETWATER

Introducing **Aquabreathe**, a technology born from the world of swimming, the sport that demands unparalleled wet management. Combining breathable and water-repellent fabrics, Aquabreathe forms an advanced ventilation system that effectively reduces odor, mold, and moisture buildup. Perfected for the rigorous demands of active lifestyles, Aquabreathe sets a new standard in moisture management.

A man and a woman are standing on a wooden deck next to a swimming pool. The man is wearing a purple bathrobe with a small logo on the chest and the word 'arena' on the sleeve. He is smiling and looking towards the camera. The woman is wearing a black and pink sports bra and is holding a large blue towel that has the word 'arena' printed on it. She is looking towards the man. The background shows a swimming pool with lane markers and a clear sky.

BATHROBES & TOWELS

Made from the finest fibers, our collection of sporty bathrobes, ponchos and towels is designed for the swimming pool, the beach and the gym.
